

## Water cooling systems for ORBIMAT

ORBICAR W trolley with integrated water cooling

### ORBICAR W trolley with integrated water cooling

The ORBICAR W trolley is the perfect accessory for the Orbitalum 300 A power supplies due to the integrated water cooling. Beside the water coolant, the trolley is equipped with a practical holder for gas bottles.

The tank already contains 8 liters (2.11 gal) of the OCL-15 coolant at delivery (see page 13).

ORBICOOL ACTIVE

### ORBICOOL ACTIVE

Very efficient compressor cooling device with constant and adjustable water temperature. Particularly suitable for welding units in series production.

2 cans, each with 2 liters (0.53 gal) of the OCL-15 coolant are already included in the scope of delivery (see page 13).

Suitable for all\* ORBIMAT orbital welding power supplies.  
Not suitable for use in combination with the ORBICAR S trolley.

## Other accessories for ORBIMAT

### ORBITWIN switching devices

To increase productivity, the switching unit ORBITWIN is available which allows the alternately operation with 2 weld heads on the ORBIMAT.

The previously assigned program is recalled automatically when the start key of the weld head is actuated. The weld head that is not being used is locked and can be prepared for the next welding operation

Including all connecting cables and hoses.

### ORBICAR S trolley

The ORBICAR S is a practical trolley with storage shelf and an option of securing a gas cylinder. The ORBICAR S trolley can be combined with all power supplies of the ORBIMAT series. This trolley is often used in combination with the ORBITALUM 165 A orbital welding power supplies.

### Durable storage and shipping case

With castors. Protects the power supply during transport. Perfect for the use on construction sites.

### BUP control box

The power supplies of the ORBIMAT CA series offer the option in conjunction with the BUP control attachment (BUP = Backup Pressure Control) to adjust the forming gas pressure in the inner tube via a pressure sensor, which compensates almost entirely the often undesirably occurring of the seam weld into the sump position. At the same time, the gas pressure is modified automatically during welding by the system between a programmable minimum and maximum value depending on the position of the electrodes.

Including ORBIPURGE forming set for tube ID 12 - 110 mm (0.472" - 4.331"), see page 70.

Soft-/Hardware package

CompactFlash Card

Remote control with cable

## Soft-/Hardware package

Suitable for all ORBIMAT orbital welding power supplies.

For external programming and data documentation, consisting of:

- 1 CompactFlash card for transferring data between the machine and PC. For storing weld data protocols or for extending the program memory. Capacity to store over 5.000 welding programs.
- 1 USB card reader for exporting the CompactFlash card on the PC.
- Software ORBIPROG\_CA. ORBIPROG\_CA software allows programs and protocols to be stored on the PC. The parameters of the CA programs can be edited using the software and can be transferred back to CA models and used there after processing. Additionally, programs from C-series machines (e.g. OM 160 C) can be converted to CA format with the help of software. The parameters of the CA programs can be edited using the software and can be transferred back to CA models and used there after processing.

## Remote control with cable

Suitable for all ORBIMAT orbital welding power supplies. 1 remote control with cable is already included in the scope of delivery of the ORBIMAT 300 CA AVC/OSC.

The remote control is not required when working with enclosed orbital weld heads.

## Consumables for ORBIMAT

### Paper rolls and ribbon cartridges

For integrated system printer. Suitable for all ORBIMAT orbital welding power supplies.

1 paper roll and 1 ribbon cartridge are already included in the scope of delivery of the ORBIMAT orbital welding power supplies.

### OCL-15 coolant

Anti-freeze pre-mix for ORBIMAT power supplies and cooling units to avoid freezing of the cooling water. Applicable up to -15 °C (5 F) outside temperature. Increased service life of components of the cooling system through very high corrosion protection and high pH-value. For even better ignition characteristics due to low conductivity. Clear coolant liquid.

Applicable with ORBICAR W, ORBICOOL ACTIVE, ORBIMAT 165 CB and 165 CA.

1 can is already included in the scope of delivery of the ORBIMAT 165 CA orbital welding power supply.

### Hose connection set ORBIMAT

1 hose connection set is already included in the scope of delivery of the ORBIMAT orbital welding power supplies.

Set, consisting of:

- Teflon gas hose
- Ear clamps with insert
- Hose clips 3/8"
- Water hose for tank ventilation
- Gas input connector
- Swivel nuts 3/8"
- Hose clips 1/4"
- Swivel nuts 1/4"
- Funnel
